Dear Sir,

In response to your request for a testimonial:

"We heard of Affordable from a mate
Who'd had some panels installed of late,
On energy saving we're rather keen
And like to think we're pretty "green".
The marketing chap was very precise,
The surveyor, too, was very nice.
It all went smoothly from the start
And the engineers also played their part.
The work was done with little mess
And now our npower bills are less.

So if you think "Perhaps we oughta"
Don't wait – and collect the cheques each quarter!

Yours sincerely,

Gareth
