Affordable Solar Energy Limited  
King Edward Quay  
Colchester CO2 8J.

02 May 2011

Dear Sir / Madam

**Re: Order Number**

We would like to thank you for the ease to us that the Solar Energy System installation has progressed.

Your Representative was extremely knowledgeable and professional. The Office Staff responded very quickly with the handling of our order and the Site Survey was dealt with promptly.

Your Technical Department gave us detailed advice as to the best style of installation to suit our property and provided excellent drawings to assist us in visualising the finished result.

The Installation was carried out to our convenience and the property was left in an immaculate condition. We started 'clocking up' energy immediately thereby using the suns free energy and earning against our own electricity bills.

Overall we have been extremely impressed with the courtesy and attitude extended to us by everyone at Affordable.

Many thanks,  
Yours faithfully,

Susan
