

## **TESTIMONIAL LETTER**

We have been considering Solar Energy for several months now and have had a previous consultation with another company but AFFORDABLE SOLAR was recommended by friends who had received a very successful installation.

We chose AFFORDABLE SOLAR on this recommendation for a consultation. From the initial phone call until after our installation we have been impressed and treated with courtesy and help at every step.

The efficiency on the day of installation was very professional and we now enjoy actually seeing the metered production of energy through daylight hours at the same time knowing we are doing our part to cut our carbon footprint.

We know this investment will be rewarding in many ways for years to come and we are so pleased we came to the decision to install.

Mr and Mrs Reed
