

Fernwood. Newark. Notts.

12.10.2011

Order No.

Dear Sir,

I have been considering Solar Panels for some time and as I am a pensioner and my little savings are earning practically nothing in the bank I decided to "take the plunge" and go for it.

Affordable came along at just the right time and I was impressed with their very professional attitude.

I hope to get 9% - 10% return on my investment and what with fuel prices rising ever higher, not to mention the green issue, helping the planet, I found

that - in modern terms - it was a
"no-brainer".

I would like to take this opportunity
to thank the staff and letters at
Affordable for their efficiency.

Yours sincerely,
James Weale.
