Dear Sirs,

The installation of a photo - voltaic system by your company last month was impressive. The complete process from original discussion to final installation and testing was done efficiently, on time, and by friendly persons who gave every confidence. Your office staff were also able to answer my few queries quickly and without fuss.

And, despite the gloomy February weather, it was very satisfying to see electricity being produced from day one!

Yours faithfully

A handwritten signature in black ink, appearing to read 'John', with a stylized flourish extending to the left.

John
