Dear Sirs,

my Order No:S.

This is merely a note to tell you of my complete satisfaction with the solar heating system installed in January last. It has performed admirably during the vile cold and wet weather experienced throughout February and March to date... and I am so pleased with my investment-quite apart from my miniscule contribution to reducing the carbon footprint. Bravo-keep up the good work!

Yours sincerely,

Dr E.D.K.

P.S. It is quite evident that I am no typist...sorry!
