

Norfolk NR9

June 2010

Dear All at Affordable Solar Energy,

This is a quick, short note to sum up how we feel the installation of our new PV system has gone.

Throughout you have all been professional, understanding, prompt, responsive, and diligent. We will willingly and happily recommend your company to friends and contacts in the future.

Best of all though is the joy we get from seeing the wheel on our mains electricity meter **GOING BACKWARDS!!!** It really makes the whole scheme worthwhile.

Wishing you continued success,

Yours sincerely,

B H
