Affordable Solar Energy Ltd.,  
6, King Edward Quay,  
Colchester  
CO2 8JB.

Dear Sir or Madam,

I am writing to inform you how pleased we are with our new Affordable Solar Electric Photovoltaic System recently installed at this property. In the first week it has on average generated 10 units of electricity each day. We are looking forward to significantly reduced energy bills.

Unfortunately we had to wait an extra 2 months due to the bad weather at the beginning of the year and a shortage of parts. I am pleased to say though that now at last it has been installed the system seems to be working very well.

Once the scaffolding was up to gain access to the roof, the system was installed very quickly, within a day. The technicians were polite and considerate and seemed to be very competent. We would certainly recommend Affordable Solar Energy to our friends.

Yours sincerely,

Clive J. G
