

Your ref

Crescent,

Dorset.
DT.

8th December 2009.

Dear Sirs,

The following is the testimonial you asked for :-

We had a Solar system installed by Affordable to reduce our hot water heating bills. The system is efficient as we are only having to top up the system, with the gas heater for about an hour a day, even though the weather has been very wet to date.

This system should reduce our escalating bills especially in the summer.

Yours faithfully.
