Ref. Customer Order No.

Dear Sir / Madam

Of the two companies that visited our home to give a quotation for the installation of solar energy Affordable Solar Energy far exceeded in professionalism and attitude, we therefore chose Affordable Energy and were not disappointed with the whole operation from start to finish and would not hesitate to recommend ASE to both friends ~~Affordable Solar Energy~~ and strangers who may ask for our comments.

We already had solar panels for hot water and this was the next step as far as we were concerned in "doing our bit" for the environment. It will also hopefully make a much better return for our investment in these financially troubled times. Having only just had the system installed we cannot comment on the benefits at the present time, but we are sure it will live up to our expectations in the future.

Once again thank you for your very prompt and efficient service.

Yours faithfully,
